

To all our families,

With Term 1 about to end, we want to wish all our families a wonderful holiday break and we look forward to seeing you once again in the new year. Please take the time to check all the relevant information for you and your children.

As a culmination of the end of term, we have another week full of performances and events.

Kind regards,

Laxmi Dangmaneerat

Head of School

International School of Chonburi (ISC)

Christmas in the Garden

8th December 2022

Entrance Ticket 300 THB

Raffle Ticket 100 THB

Lucky Draw Ticket 30 THB

Available for sale NOW!!

States of Matter

In Year 4, we did a science experiment about states of matter. The children observed a balloon filling up with Carbon Dioxide gas after they mixed vinegar and baking soda. They also watched a bath bomb disintegrate and create bubbles and then researched the science behind this phenomenon. They learnt about the different properties of solids, gas and liquid and how materials change phases.

Walk Like an Egyptian

This term, Year 3 is working on Ancient Egypt. One of the projects is to create an Ancient Egypt 3D visual map, working in teams. The children are learning the difference between 2D and 3D, boosting their imagination, and creativity as they improve their visual skills and enjoy the activity. The children have learned a lot about Ancient Egypt, they started to understand why The Nile River was so important 6000 years ago and learned about some of the most famous monuments, such as the Pyramids at Giza and the mythical Sphinx. Students are using materials such as clay, cardboard, and colour pencils. They have divided the map into 4 quadrants where each team will focus on their own work, and put it all together at the end of the activity. A big round of applause for Year 3!

All About Capacity

In Year 5, we explored the capacity of different containers. The children were reminded of the units and made estimates. They were provided with measuring jugs and measuring cylinders, and I was impressed by their ability to read scales with different calibrations.

Ready, Set, Action!

Year 2 has been busy preparing the props and scenery that we will use for our upcoming production, The Colour of Friendship. Last week we created clouds by painting boxes white and then glueing fluff to them. This week we have been working on creating different props that we will use, including binoculars to help us locate 'different'. In art class, the students began painting their warm colour village, and in music class, Year 1 and Year 2 have been working together to rehearse the grand finale. The students are excited about the production, which takes place on Wednesday 7th December, at 1:30 p.m.

Rubik's Cube Club

The Rubik's Cube Club, initiated by our Student Council, was for all those who were interested in solving the Rubik's cube. At that time, there were 2 students who already knew how to solve a Rubik's Cube and quite a few others who wanted to learn. We started meeting on Fridays during break time to meet and learn how to solve the mysterious Rubik's Cube one step at a time. We soon realised that the Rubik's Cube, like Maths, is a consecutive set of patterns that simply needed to be practised and committed to memory. A big thanks to Ms. Caroline and Mano for organising this and making it happen.

ISC's Swim Gala 2022

ISC students from Key Stages 1 and 2 and ISC Staff all participated in a variety of races during our Swim Gala on Friday, 2nd December 2022. Students from Key Stage 1 chose to race in the kickboard, front crawl, breaststroke (with kickboard) or freestyle races. Key Stage 2 students participated in kickboard, front crawl, breaststroke, and freestyle races. ISC Staff jumped into kickboard, freestyle, and underwater distance races!

Congratulations to each race winner that received the coveted gold medals! Congratulations to all students and staff that raced and received a certificate of recognition for their participation.

After the races, both key stages and staff enjoyed the awards ceremony and a fun-filled pool party! An extra special thank you to Coach Roel and Coach Noi for arranging this exciting event!
